2025 Rates Table Template v14.0		All fields with an asterisk (*) are required. To validate press Validate button or Ctrl + Shift + I. To finalize, press Finalize button or Ctrl + Shift + F.				
		If you are in a community rating state, select Family-Tier Rates under Rating Method and fill in all columns.				
		If you are not in a community rating state, select Age-Based Rates under Rating Method and provide an Individual Rate for every age band.				
		If Tobacco is Tobacco User/Non-Tobacco User, you must give a rate for Tobacco Use and Non-Tobacco Use.				
		To add a new sheet, press the Add Sheet button, or Ctrl + Shift + H. All plans must have the same dates on a sheet.

1 Actuarial Memorandum

This memorandum documents the development of Individual market health insurance premium rates for UnitedHealthcare of Illinois, Inc. (“UHCIL”). UHCIL is offering Individual health insurance products on and off the Exchange in the Bronze, Silver and Gold metal tiers, with the premium rates documented in this memorandum effective January 1, 2025. The proposed plans are shown in Appendix A.

Considerations for Cost Sharing Reduction (CSR) Funding

The rates presented and submitted here were developed assuming that CSR payments are not funded by the federal government in 2025 and the cost of these payments will instead be funded through member premiums and Advanced Premium Tax Credits. The submission of these rates does not guarantee that UHCIL will continue to participate in the individual market in 2025.

This version of the actuarial memorandum is considered PUBLIC and hence does not contain information determined to be TRADE SECRET. A separate actuarial memorandum was submitted and deemed TRADE SECRET, which included all proprietary information related to UHCIL. TRADE SECRET information includes the following, but not limited to: UHCIL assumptions, assumptions and methodologies that could provide insight into UHCIL’s pricing strategy and contract reimbursement information.

2 General Information Section

Company Identifying Information

Company Legal Name:	UnitedHealthcare of Illinois, Inc.
State:	Illinois
HIOS Issuer ID:	42529
Market:	Individual
Effective Date:	January 1, 2025

Company Contact Information

Primary Contact Name:	██████████
Primary Contact Telephone Number:	██████████
Primary Contact Email Address:	██████████

3 Proposed Rate Changes

UHCIL will sell Individual policies with an effective date of January 1, 2025. The 2025 aggregate rate change as shown on the Unified Rate Review Template (URRT) is [REDACTED]. Rate changes by plan are found in Worksheet 2, row 1.11 of the URRT. The quantitative impact for all significant factors driving the proposed rate change is shown in the table below.

[Table Redacted]

[REDACTED]

4 Market Experience

4.1 Experience and Current Period Premium, Claims, and Enrollment

Paid Through Date: [REDACTED]

Current Date: [REDACTED]

Allowed and Incurred Claims Incurred During the Experience Period

Allowed claims and incurred claims are pulled from the same source(s) and calculated using a similar methodology. Only claim amounts for members in the Individual Single Risk Pool for claims which have already been processed are included in our claims data (incomplete claims). Pharmacy rebates are processed outside the claims system and are equal on an incurred and allowed basis.

A set of completion factors is applied to the incomplete claims to develop the expected allowed and incurred claims for the experience period.

[Table Redacted]

The same methodology was used to develop the estimate of claims incurred but not paid for both allowed claims and incurred claims in the experience period. The methodology incorporates estimates based upon developed completion factors. Model results are evaluated for reasonableness and actuarial judgment may be applied.

The claims used to develop completion factors reflect the experience period claims for the information submitted. The incurred but not paid claims are not unusually high or unusually low relative to the experience period claims paid.

4.2 Benefit Categories

Claims processed through UHCIL's systems were mapped to the benefit categories in Worksheet 1, Section II of the URRT based on where services were administered and the types of medical services rendered.

- **Inpatient Hospital** includes non-capitated facility services for medical, surgical, maternity, mental health and substance abuse, skilled nursing and other services provided in an inpatient facility setting and billed by the facility.
- **Outpatient Hospital** includes non-capitated facility services for surgical, emergency room, laboratory, radiology, therapeutic, observation and other services provided in an outpatient facility setting and billed by the facility.
- **Professional** includes non-capitated primary care, specialist care, therapeutic, the professional component of laboratory and radiology and other professional services, other than hospital based professionals whose payments are included in facility fees.
- **Other Medical** includes non-capitated ambulatory, home health care, durable medical equipment, prosthetics, supplies, vision exams, dental services and other services.
- **Capitation** includes all services provided under one or more capitated agreements.
- **Prescription Drug** includes drugs dispensed by a pharmacy. This amount is net of rebates received from drug manufacturers.

The benefit categories were defined by our claims department using standard industry definitions.

4.3 Projection Factors

The following describes the factors used to project experience period allowed claims to the 2025 projection period.

4.3.1 Trend Factors

A trend assumption was applied to translate 2023 experience year claims costs to calendar year 2025 claims costs.

The assumptions shown in "Year 1 Trend" and "Year 2 Trend" of Worksheet 1 of the URRT represent 12 months of ongoing changes in utilization, unit costs and technology. The combined, annualized trend assumption implied is [REDACTED]. This assumption is based on [REDACTED]. This trend assumption does not include any expected changes in demographics, morbidity or benefit changes.

4.3.2 Adjustments to Trended EHB Allowed Claims PMPM

This section explains adjustments other than trend that are made to the experience period claims in order to develop the projected Index Rate.

Morbidity Adjustment

The Morbidity Adjustment factor is [REDACTED] as shown on Worksheet 1 of the URRT.

[REDACTED]

Demographic Shift

The Demographic Shift adjustment factor is [REDACTED] as shown on Worksheet 1 of the URRT.

[REDACTED]

Plan Design Changes

The Plan Design Changes adjustment factor is [REDACTED] as shown on Worksheet 1 of the URRT.

[REDACTED]

Other

The Other adjustment factor is [REDACTED] as shown on Worksheet 1 of the URRT.

[REDACTED]

4.3.3 Manual Rate Adjustments

No manual rate was needed as the experience period claims are considered fully credible.

4.3.4 Credibility of Experience

Full credibility has been assigned to the base period experience. The experience has been appropriately adjusted to reflect the material changes anticipated between the experience period and the projection period.

The following formula was used for assigning credibility to the experience period:

$$Z = \min \left[1, \left(\frac{MM}{FC} \right)^{.5} \right]$$

Where,

- Z is the credibility percentage applied to the experience data,
- MM is the experience period member months and
- FC is the member months required for full credibility.

[REDACTED]

Consideration was given to guidance provided in Actuarial Standards of Practice #25, *Credibility Procedures*.

4.3.5 Establishing the Index Rate

As shown on Worksheet 1 of the URRT, the Index Rate for this filing is [REDACTED]. It estimates the total combined allowed claims PMPM for EHBs in the Illinois Individual market.

4.3.6 Development of the Market-wide Adjusted Index Rate

The Market-wide Adjusted Index Rate (MAIR) for the projection period is [REDACTED] as shown on Worksheet 1 of the URRT. The MAIR is calculated as the Index Rate adjusted for all allowable market-wide modifiers defined in the market rating rules, 45 CFR 156.80(d)(1). The Index Rate and market level adjustments are on an allowed claims basis.

A	Projected Index Rate for January 1, 2025	████████
B	Reinsurance	████████
C	Risk Adjustment Payment/Charge	████████
D	Exchange User Fees	████████
<hr/>		
$=(A-B-C)/(1-D)$	Market-wide Adjusted Index Rate	████████

Reinsurance

UHCIL does not expect any reinsurance recoveries from federal or state reinsurance programs.

Risk Adjustment Payment/Charge

The projection period risk adjustment charge was developed by estimating the individual components of the risk adjustment transfer formula (e.g., PLRS, AV, etc.) for both UHCIL and the statewide average. A description of the development of each component is described below:

- PLRS: ██████████
- IDF: ██████████
- GCF: ██████████
- ARF: ██████████
- Actuarial Value (AV): ██████████
- Statewide average premium: ██████████

The projected risk adjustment payable/receivable was converted to an allowed basis when developing the MAIR.

The risk adjustment fee of \$0.18 PMPM was incorporated into 2025 rates and included within the taxes and fees.

████████

Exchange User Fees

The Exchange User Fee is ██████████ reflected as a percentage of allowed claims in the development of the MAIR. ██████████

As a percent of premium, the Exchange User Fee is ██████████

4.4 Plan Adjusted Index Rate

The Plan Adjusted Index Rates (PAIR) were developed by applying allowable plan level adjustments to the MAIR. The allowable plan-level adjustments are shown in Appendix C.

The following describes how each component of the adjustment was developed.

Actuarial Value and Cost-Sharing Design

████████

CSR LOAD

We have included an adjustment to the filed plans to reflect the impact of CSRs no longer being funded by the federal government. The regulation still requires CSR variant plans to be offered to low-income members, under the same federal AV requirements (keeping similar plan design and cost sharing structures as the current regulations), but the subsidy amounts will instead be a liability to the insurers and not the government. [REDACTED]

Provider Network, Delivery System Characteristics and Utilization Management Practices

[REDACTED]

Benefits in Addition to EHBs

[REDACTED]

An adjustment has been applied for voluntary abortion service coverage required by the state. This cost has been estimated using the mandatory minimum of \$1.00 PMPM per 45 CFR 156.280(e)(4), although the actual estimated costs for these services is less than this amount.

Administrative Costs

Non-benefit administrative costs were applied on a percent of premium basis and on a PMPM basis. They are bucketed into three categories as shown on Worksheet 2 of the URR: (1) administrative expenses, (2) taxes and fees and (3) profit and risk load.

ADMINISTRATIVE EXPENSE

UHCIL expects to incur [REDACTED] in general administrative expenses for the Individual ACA block of business in Illinois for 2025. We expect to incur an additional [REDACTED] in broker commissions over this period.

Health Care Quality Improvement and Fraud Detection Expenses were estimated as [REDACTED] and were included in the administrative expense load.

[REDACTED]

TAXES AND FEES

Taxes and regulatory fees included in the development of 2025 rates include the following:

- Risk Adjustment User Fee: \$0.18 PMPM
- PCORI Fee: \$0.27 PMPM
- Non-Reform Assessment Fee(s): [REDACTED]
- State Premium Tax: [REDACTED]
- Federal Income Tax: [REDACTED]

The Exchange User Fee load is not included here. It was previously built into the MAIR as discussed in Section 4.3.6.

PROFIT AND RISK LOAD

The proposed 2025 premiums allocate ██████████ to profit and risk margin on a post-tax basis.
██████████

Catastrophic Plans

UHCIL will not offer Catastrophic plans in Illinois for 2025.

4.5 Calibration

Age Curve Calibration

The approximate age calibration factor is ██████████. It was determined as follows:

$$ACF = \frac{\sum Members}{\sum Members * Age Factor}$$

Where:

- ACF is the age calibration factor,
- Members are the projected members and
- Age Factor is the rating factor associated with each member.

An age factor of 0 is used for members who are not expected to pay premium.

Section 4.6 demonstrates how the PAIRs and age curve are used to generate a schedule of premiums.

Geographic Factor Calibration

The geographic calibration factor is ██████████. It was determined as follows:

$$GCF = \frac{\sum Members}{\sum Members * Area Factor}$$

Where:

- GCF is the geographic calibration factor,
- Members are the projected members and
- Area Factor is the rating factor associated with each member.

Geographic area factors are calculated based upon expected reimbursement rates UHCIL aims to achieve by rating area. These factors are relative to the membership-weighted average reimbursement rate for all areas UHCIL will service in Illinois. The factors only reflect differences in the costs of delivery (which can include unit cost and provider practice pattern differences) and not differences in population morbidity by geographic area.

Section 4.6 demonstrates how the PAIRs and area factors are used to generate a schedule of premiums.

Tobacco Use Rating Factor Calibration

The tobacco calibration factor is ██████████. It was determined as follows:

$$TCF = \frac{\sum Members}{\sum Members * Tobacco Factor}$$

Where:

- TCF is the tobacco calibration factor,
- Members are the projected members and
- Tobacco Factor is the rating factor associated with each member.

Section 4.6 demonstrates how the PAIRs and tobacco factors are used to generate a schedule of premiums.

Application of Calibration Factors

The age, geographic and tobacco calibration adjustments are not plan specific. These adjustments are applied uniformly to all plans.

The age rating curve used by UHCIL in Illinois is the curve indicated in the HHS Notice of Benefit and Payment Parameters for 2018 Final Rule.

4.6 Consumer Adjusted Premium Rate Development

The member's premium rate is calculated by first multiplying the PAIR by the calibration factors. This is the Calibrated PAIR, which is shown on Worksheet 2, row 3.14 of the URRT. The result can then be multiplied by the member's specific age, geographic and tobacco rating factors to determine the approximate member rate.

$$CPAIR = PAIR \times ACF \times GCF \times TCF$$

$$CAPR = CPAIR \times Age Factor \times Geographic Factor \times Tobacco Factor$$

Where:

- CPAIR is the Calibrated Plan Adjusted Index Rate,
- PAIR is the Plan Adjusted Index Rate,
- ACF is the age calibration factor,
- GCF is the geographic calibration factor,
- TCF is the tobacco calibration factor,
- CAPR is the Consumer Adjusted Premium Rate and
- Age, Geographic and Tobacco Factors are the rating factors associated with each member.

The premium for family coverage is determined by summing the premiums for each individual family member, provided at most three child dependents under age 21 are taken into account.

The rate manual and a demonstration of how the allowable rating factors are applied to the Calibrated PAIR to determine the Consumer Adjusted Premium Rate are shown in Appendix B.

5 Projected Loss Ratio

The projected medical loss ratio (MLR) for the individual line of business is [REDACTED]. This was calculated using the federally prescribed MLR methodology.

[REDACTED] Taxes and regulatory fees were excluded from premium in the calculation of this value. The calculation for the projected federal MLR is included in Appendix D.

6 Plan Product Information

6.1 AV Metal Values

The federal Actuarial Value Calculator was used to generate the AV metal values shown on Worksheet 2, row 1.6 of the URRT. Please refer to the Unique Plan Design Justification and Documentation document for the impact of plans and cost sharing inputs modifications made in order to enter these into the federal Actuarial Value Calculator.

6.2 Membership Projections

The total membership projections for 2025 were based upon internal modeling of market share estimates for the Illinois counties we intend to service. The percentage of membership distributions by metal tier and variant was based on the metal, CSR variants and rating area/county distribution enrollments for Illinois from actual UHCIL enrollment with additional consideration to current Individual ACA Open Enrollment Period reports. Refinements to this data are applied for strategic initiatives and actuarial judgment.

Projected enrollment in CSR subsidy eligible Silver plans was informed by actual UHCIL enrollment and similar distributions in the Open Enrollment Period reports. The resulting projected enrollment by plan and subsidy level is provided in Appendix E.

6.3 Terminated Plans and Products

Please see Appendix A for crosswalk of the terminated plans and products. Please see Worksheet 2, Section I of the URRT for plan names associated with their terminated and mapped plan names.

6.4 Plan Type

The drop downs in Worksheet 2, Section 1 of the URRT describe the issuer's plan types appropriately.

7 Miscellaneous Instructions

7.1 Effective Rate Review Information

Please see the submitted actuarial memorandum associated with state-specific requirements.

7.2 Reliance

7.3 Actuarial Certification

I, [REDACTED], am a Member of the American Academy of Actuaries (MAAA). I meet the Qualification Standards of Actuarial Opinion as adopted by the American Academy of Actuaries for preparing premium rate filings for insurers.

This actuarial certification applies to the UnitedHealthcare of Illinois, Inc. Individual products to be offered in the Illinois Exchange. I certify that the projected Index Rate is:

- In compliance with all applicable state and federal statutes and regulations (45 CFR 156.80 and 147.102)
- Developed in compliance with applicable Actuarial Standards of Practice, including:
 - ASOP No. 5, *Incurred Health and Disability Claims*
 - ASOP No. 8, *Regulatory Filings for Health Benefits, Accident and Health Insurance, and Entities Providing Health Benefits*
 - ASOP No. 12, *Risk Classification*
 - ASOP No. 23, *Data Quality*
 - ASOP No. 25, *Credibility Procedures*
 - ASOP No. 41, *Actuarial Communications*
 - ASOP No. 50, *Determining Minimum Value and Actuarial Value under the Affordable Care Act*
- Reasonable in relation to the benefits provided and the population anticipated to be covered
- Neither excessive nor deficient.

The Index Rate and only the allowable modifiers as described in 45 CFR 156.80(d)(1) and 45 CFR 156.80(d)(2) were used to generate plan level rates.

The geographic rating factors reflect only differences in the cost of delivery (which can include unit cost and provider practice pattern differences) and do not include differences for population morbidity by geographic area.

The federal AV Calculator was used to determine the AV Metal Values shown in Worksheet 2 of the Unified Rate Review Template for all plans. Any alternate methodologies are described in the Unique Plan Design Justification and Documentation.

The Part I Unified Rate Review Template does not demonstrate the process used to develop the rates. Rather it represents information required by federal regulation to be provided in support of the review of rate increases, for certification of qualified health plans for federally

facilitated exchanges and for certification that the Index Rate is developed in accordance with federal regulation and used consistently and only adjusted by the allowable modifiers.

Sincerely,

A solid dark blue rectangular box used to redact a signature.

I, Zhuoying Chen, am a member of the American Academy of Actuaries and meet the Academy qualification standards to prepare this rate filing. I certify that:

1. The index rate was calculated appropriately and in compliance with applicable laws and actuarial standards of practice;
2. The plan level rates were developed using the index rate and only adjusted for allowable factors;
3. The standard Actuarial Value calculator was used to determine the metal Actuarial Value for each plan, or if an alternate methodology was used, the methodology is consistent with the Actuarial Value calculator;
4. The geographic factors reflect only differences in the costs of delivery (including both unit costs and provider practice patterns) and do not reflect differences in morbidity;
5. The proposed rates were developed in compliance with applicable Federal regulations;
6. The filing has been prepared in compliance with Actuarial Standards of Practice 8, 26, 31, and 41.

I understand that any intentional material misstatements may result in disciplinary action.

RE: UnitedHealthcare of Illinois, Inc.
SERFF Rate Filing UHLC-134085298
SERFF Form Filings UHLC-134079061 and UHLC-134078982

Ms. Gillespie,

The purpose of the rate filing is to submit rates for products compliant with the Affordable Care Act (ACA) provisions. These rates are submitted in compliance with IDOI Company Bulletin 2024-11 and other guidance.

The filing has a requested effective date of January 1, 2025. An actuarial memorandum and an experience spreadsheet are included within the filing.

We request that you keep this information confidential to the extent allowed by your laws and regulations.

Please feel free to contact me if I may be of assistance during your review. I can be reached directly by phone at (763) 361-3263 or via e-mail at zhuoying_chen@uhc.com.

Respectfully,

A handwritten signature in black ink, appearing to read 'Z Chen'.

Springfield, IL 62767

Re: UnitedHealthcare of Illinois, Inc.
SERFF Tracking Number UHLC-134085298

Dear Acting Director Gillespie,

UnitedHealthcare of Illinois, Inc. (UnitedHealthcare) respectfully requests the Illinois Department of Insurance keep the following items protected as proprietary or trade secret under Section (1)(g) of the Freedom of Information Act [5 ILCS 140/7(1)(g)]. The information shown in the list of items below are not generally well known or readily available and could provide value to other health plans at UnitedHealthcare's expense. If competitors make subsequent business decisions in reaction to what they have learned, UnitedHealthcare could suffer economic harm. Keeping the documents mentioned below confidential will allow UnitedHealthcare to compete fairly in the Illinois market.

Trade Secret Document:

- Rate Data Collection Form
- Federal Business Rules Template
- Service Area Crosswalk Template
- Federal Service Area Template
- Network Service Area Crosswalk Template
- AV Calculator Screenshots
- Proposed Enrollment Template
- Federal Plan Benefits Template
- Unique Plan Design Justification
- State Actuarial Memorandum
- Federal Part III Actuarial Memorandum
- Memorandum Appendix, including Sample Rate Calculation
- Federal Part I Unified Rate Review Template
- All filing correspondence, including objections and responses to objections

It is acknowledged that certain elements of rate filing submissions will be made publicly available including:

- Confidentiality Request Letter
- Redacted Federal Part III Actuarial Memorandum
- Redacted State Actuarial Memorandum
- Public Rate Filing Summary
- SERFF Rate/Rule Schedule tab
- Federal Rates Table Template
- Health Premium Rates Checklist

If you have any questions with regards to our trade secret assertion, please do not hesitate to contact me at (763) 361-3263 or via e-mail at zhuoying_chen@uhc.com.

Respectfully,

A handwritten signature in black ink, appearing to read "Z Chen". The signature is fluid and cursive, with the first letter 'Z' being particularly large and stylized.

Zhuoying Chen, ASA, MAAA

Plan Year 2025 Public Rate Filing Summary for Individual and Small Group ACA-Compliant Plans
 215 ILCS 5/355(d) and (e)

Company Name:	<input type="text" value="UnitedHealthcare of Illinois, Inc."/>
SERFF Filing ID:	<input type="text" value="UHLC-134085298"/>
Individual or Small Group:	<input type="text" value="Individual"/>
Effective Date:	<input type="text" value="1/1/2025"/>
Exchange Information: (On-Exchange or Off-Exchange Only)	<input type="text" value="On-Exchange"/>
Product Type(s) Offered: (HMO, PPO, and/or POS)	<input type="text" value="HMO"/>
Metal Tiers Offered: (please list which metal tiers are offered)	<input type="text" value="Bronze, Silver, and Gold"/>
Tobacco Rating Factors Used? (y/n)	<input type="text" value="Y"/>
Description of Service Areas:	<input type="text" value="UnitedHealthcare of Illinois, Inc. is offering Individual ACA health insurance products in the following counties: Bond, Calhoun, Christian, Clinton, Cook, DuPage, Greene, Jersey, Kane, Kankakee, Kendall, Lake, Macon, Macoupin, Madison, McHenry, Monroe, Montgomery, Randolph, Sangamon, Shelby, St. Clair, Washington, Will"/>

Rate Change Summary:

Average Rate Change:	<input type="text" value="1.46%"/>
Maximum Rate Change:	<input type="text" value="5.38%"/>
Minimum Rate Change:	<input type="text" value="-2.35%"/>

Expected Number of People Affected:

Company Justification for Rate Change:

The proposed rate change is 1.46% and will affect 21,968 individuals. The rate changes vary between -2.35% to 5.38%. Given that the rate changes are based on the same single risk pool, the rate changes vary by plan due to plan design changes. The primary factors that affect the rate change are:

- Change in experience used in the 2025 premium rate development relative to the 2024 rate development.
- Changes in unit cost per service and utilization of services.
- Changes in benefits including those made to comply with the requirements of the Affordable Care Act.
- Changes in non-benefit expenses such as administrative costs, taxes, and fees.

Expected Medical Loss Ratio:	<input type="text" value="85.6%"/>
Expected Annual Medical Trend:	<input type="text" value="8.0%"/>
Expected Administrative Cost Ratio:	<input type="text" value="10.5%"/>
