2022 Market Share Detail

Content Overview

The 2022 Market Share Report (Report) for Health business covers companies which report Health business in their 2022 year-end Health Annual Statements. These companies include Licensed Companies, Surplus Lines and Risk Retention Groups. The report does not break out Dual Authority, HMO, LHSO only premiums or enrollment counts. Please see our 2022 Dual Authority/HMO/LHSOs Market Share Report for that detail.

The Report contains summary tables for all lines of business within the Health statement filing groups. The summary table of each line of Health business provides the following statistics by company:

- NAIC Company Code
- Company Name
- State of Domicile
- Illinois Direct Premiums Written (DPW)
- Illinois Market Share
- Illinois Direct Premiums Earned (DPE)
- Illinois Direct Losses Incurred (DLI), and
- Illinois Pure Direct Loss Ratio.

Each line's summary table omits statistics for companies that have no Illinois DPW for that line except when there are DLI during 2022. If a line's summary table shows zero grand totals for DPW and DLI, it means that there is no business written or incurred losses by any company for this line of business in Illinois.

A company's Market Share percentage for a particular line of business is defined as the ratio between the company's Illinois DPW and the Illinois's total DPW, for that line, multiplied by 100.
