

2009 Annual Report to the Illinois General Assembly on Insurance Cost Containment

Pat Quinn, Governor

Michael T. McRaith, Director of Insurance

Illinois Department of Financial and Professional Regulation

Division of Insurance

PAT QUINN
Governor

MICHAEL T. McRAITH
Director
Division of Insurance

April 15, 2009

To the Honorable Members of the 97th General Assembly:

The Illinois Insurance Cost Containment Act requires the Director of Insurance to submit an annual report to the General Assembly by April 15th containing an analysis of portions of the Illinois insurance market and a recommendation of the most appropriate and comprehensive cost containment system for the state (Article XLII, 215 ILCS 5/1202d).

In accordance with the requirement of Section 1202 of the Illinois Insurance Code, I am pleased to submit the Annual Report to the General Assembly on Insurance Cost Containment for 2009. It contains significant information from a national and Illinois perspective regarding the underwriting results for the property and casualty insurance industry for the year 2007.

Sincerely,

Michael T. McRaith
Director of Insurance

Appendix C: Consolidated Statement of Income for Illinois-licensed Property/Casualty Insurers for the year ending December 31, 2007.

Appendix D: Consolidated Exhibit of Premiums and Losses in the State of Illinois for All Illinois-licensed Property/Casualty Insurers During 2007.

Appendix E: Consolidated Insurance Expenses Exhibit Part III of Illinois-licensed Property/Casualty Insurers for 2007.

Appendix F: Consolidated Schedule T of all Property/Casualty Insurers for 2007.

PURPOSE OF THIS REPORT

The Division of Insurance is required by statute to submit an Annual Report to the Illinois General Assembly on Insurance Cost Containment by April 15th of each year containing an analysis of sections of the Illinois insurance market and a recommendation of the most appropriate and comprehensive cost containment system for the state.

The Illinois Insurance Cost Containment Act (215 ILCS 5/1200) was enacted in 1986 in response to the public's growing concern about the availability and affordability of property and liability insurance. The law mandated that a uniform system be created for the collection, analysis and distribution of insurance cost data. Its expressed intent was to permit and encourage competition among companies on a sound financial basis to the fullest extent possible and to establish a mechanism to ensure the provision of adequate insurance at reasonable rates to the citizens of Illinois.

The required format for the cost containment data is defined by Part 4203 of the Ill Adm. Code (50 Ill Adm. Code Part 4203). As defined in Part 4203, every insurer licensed to write property or casualty insurance in the state of Illinois shall provide to the Director data reflecting its business activities in a number of area's including Private Passenger Automobile, Homeowners, Medical Malpractice, Commercial Automobile, Business Owners, and several other commercial lines.

OVERVIEW

For the lines studied (homeowners, private passenger auto, commercial auto liability, medical malpractice, and other liability) only the medical malpractice line is considered highly concentrated in Illinois as evidenced by the Herfindahl/Hirschmann Index. This is consistent with our general knowledge of the markets.

The residual markets (FAIR Plan, Auto Plan, and Workers Compensation Assigned Risk Pool) all have very small shares of the market which indicates healthy competition. The Workers Compensation market share is the largest at 4% but notably has been declining since 2003.

The report reflects nothing of concern with the alternative market mechanisms although the number of surplus line policies covering general liability has increased by 50% since 2003 to 29,000 policies in 2007. This increase is most likely the result of continued underwriting restrictions in the standard market.

The report does not identify any concerns with profitability as loss results for each line of business studied remains consistent with nationwide trends. It is notable that medical malpractice losses as a percent of premium have declined dramatically since 2003 and remain consistent with the nationwide trend.

In addition to profitability the report examines several aspects of policyholder surplus. As reflected in the report, the overall level of policyholder surplus remains strong. In conclusion the combination of stable losses, profits, and surplus for the insurance companies doing business in Illinois continues to indicate that the overall insurance market is relatively reliable and stable for Illinois consumers.

DIRECT PREMIUMS WRITTEN AND LOSS RATIOS BY STATE

Figure 1 shows a breakdown of total direct premium written (DPW) and losses incurred for the property/casualty industry by state from 2003 through 2007.

Direct written premium in Illinois totaled \$21.1 billion in 2007, representing 4.1 percent of total written premium nationwide. Property/casualty losses in Illinois were 58 percent of direct earned premium in 2007. After decreasing from 2003 through 2006, losses rose slightly in 2007, but continued to be below the five year average.

* Direct Pure Loss Ratio is calculated by dividing losses incurred by direct earned premium.
Source: NAIC State Data Network; aggregate Schedule T for all property/casualty insurers.

Figure 2 shows the percentage of total direct written premium and loss ratio for the property/casualty industry in ten regions of the United States during 2007 as well as the 5-year average.

Figure 2
Distribution of Direct Premiums Written and Loss Ratios by Region

	Pacific	Mountain	Northwest Central	Southwest Central	Northeast Central	Southeast Central	Mid-Atlantic	South Atlantic	New England	Other*	Total All Regions
Percent Total 2007 DPW	15.8%	6.4%	6.7%	10.7%	12.9%	5.0%	14.6%	20.1%	5.1%	2.8%	100.0%
Direct Loss Ratio - 2007	52.7%	55.7%	58.0%	53.1%	57.7%	52.9%	59.1%	49.3%	50.7%	43.9%	53.8%
Direct Loss Ratio-5 yr avg	53.3%	55.7%	57.2%	69.0%	59.9%	70.8%	58.9%	60.8%	53.0%	45.6%	59.1%

*The "other" region includes American Samoa and Guam, Puerto Rico and the U.S. Virgin Islands and Canada.

A look at the five-year average loss ratios shows that the Southwest Central and Southeast Central regions had the highest losses over the last five years. This can be attributed to the 2005 hurricane season when Hurricane Katrina and other storms made landfall along the Gulf coast. The five-year average loss ratio in these regions continued to improve as a result of reduced hurricane activity in recent years.

Figure 3 illustrates the distribution of property/casualty premium written by line of business during 2007 in Illinois. Personal-lines insurance (homeowners and private passenger automobile) continues to represent the largest portion of the property/casualty market. Private passenger automobile (27 percent), including both the liability and physical damage component, is the single largest line of business.

Pursuant to Part 4203 companies are required to file data for private passenger automobile (liability and physical damage separately), homeowners (including residential fire), commercial automobile liability, and specified insurance classes from the medical malpractice and other liability lines. The workers' compensation line of business has also been included as a separate line.

ANALYSIS OF THE MARKETPLACE

From both a consumer's and a regulator's standpoint, insurance regulation should provide an environment where:

1. Coverage is available.
2. Coverage is offered at a reasonable price.
3. Coverage is available from reliable insurers.

The Cost Containment Act requires the Division to analyze the marketplace each year and to recommend changes that may be needed to correct market problems.

The Division measures the overall competition of the Illinois marketplace by looking at three elements: availability, profitability, and reliability.

Availability

The Division measures availability in three ways:

1. Herfindahl/Hirschman Index (HHI) and Market Shares by Line.
2. Market Shares of Residual Market Mechanisms.
3. Participation in Alternative Risk Transfer Mechanisms.

Herfindahl/Hirschmann Index (HHI) and Market Shares by Line

The Cost Containment Act requires the Division to collect and analyze data in five major lines of business: homeowners', private passenger automobile, commercial automobile liability, medical malpractice, and other liability. This report contains an analysis of market concentration and market share in the State of Illinois for each of these lines of business. Market concentration is determined using an economic measure known as the Herfindahl/Hirschmann Index (HHI). The HHI is the summation of the squares of each company's market share. Generally, an HHI of 1800 or above is an indication that the market may be too highly concentrated and may be approaching anti-competitive behavior.

Homeowners HHI

Figure 4 provides a graph of the HHI for Illinois homeowners' insurance from 2003 through 2007. As the chart shows, the market for homeowners' insurance continues to demonstrate a healthy level of competition. Based on the measures below, the system for cost containment appears to be appropriate for Illinois consumers.

Figure 4

**Illinois Market Concentration - Homeowners
(2003-2007)**

The top ten Illinois homeowners' writers (including residential fire) and their market shares for 2007 and 2006 are shown in **Figures 5 and 6**.

Losses incurred, defense and cost containment expenses incurred, and taxes, licenses and fees are shown as a percent of earned premium. Commission and brokerage expenses are shown as a percent of written premium.

Homeowners' data including residential fire and mobile home coverage are collected pursuant to Cost Containment Data and Reporting Requirements, Part 4203, subpart A. Cost containment data for homeowners are summarized for the entire State of Illinois, the City of Chicago, and downstate Illinois. State Farm Fire & Casualty Company continues to rank first in all three categories. Most insurers that write in downstate Illinois also have a presence in the City of Chicago. There were 162 insurers reporting homeowners business throughout the state and 151 companies reporting direct written premium in the City of Chicago.

The top ten writers in Illinois and their market shares for 2007 were:

State Farm Fire & Casualty Co.	31.3%
Allstate Indemnity Co.	9.5%
Country Mutual Insurance Co.	7.9%
Allstate Insurance Co.	6.3%
American Family Mutual Insurance Co.	5.2%

Private Passenger Automobile HHI

Figure 7 provides a graph of the HHI for Illinois private passenger automobile insurance (including liability and physical damage) from 2003 through 2007. As reflected below, consumers of private passenger automobile insurance in Illinois continue to enjoy a stable, highly competitive market. Based on the measures below, the system for cost containment appears to be appropriate for Illinois consumers.

Figure 7

Illinois Market Concentration - Private Passenger Automobile (2003-2007)

Figures 8 and 9 show the top ten Illinois private passenger automobile writers (liability and physical damage coverage combined) and their market shares for 2007 and 2006.

Figure 8

As Illinois motorists are only required to maintain automobile liability coverage the following market share totals identify the automobile liability market only. In Cook County, the top ten writers of private passenger automobile liability coverage for 2007 were:

State Farm Mutual Auto Insurance Co.	29.2%
Allstate Insurance Co.	5.8%
Allstate Property & Casualty Insurance Co.	5.6%
American Family Mutual Insurance Co.	4.4%
Illinois Farmers Insurance Co.	4.3%
Allstate Fire & Casualty Insurance Co.	4.0%
American Access Casualty Co.	3.7%
GEICO General Insurance Co.	3.2%
State Farm Fire & Casualty Co.	2.5%
<u>Founders Insurance Co.</u>	<u>2.3%</u>
Percent of total market	65.0%

The top ten writers in the downstate (outside Cook County) of private passenger automobile liability market in 2007 were:

State Farm Mutual Automobile Insurance Co.	28.6%
Country Mutual Insurance Co.	5.8%
Illinois Farmers Insurance Co.	5.7%
American Family Mutual Insurance Co.	5.5%
Allstate Prop & Casualty Insurance Co.	4.2%
Allstate Insurance Co.	4.1%
Country Preferred Insurance Co.	3.6%
Allstate Fire & Casualty Insurance Co.	2.3%

State Farm Fire And Casualty Co	1.7%
<u>Farmers Automobile Insurance Assoc.</u>	<u>1.3%</u>
Percent of total market	63.0%

Commercial Automobile Liability HHI

Figure 10 provides a graph of the HHI for Illinois commercial automobile liability from 2003 to 2007. The HHI suggests that the market concentration in Illinois for commercial automobile liability insurance continues to be very competitive. Based on the measures below, the system for cost containment appears to be appropriate for Illinois consumers.

Figure 10

Illinois Market Concentration - Commercial Automobile Liability (2003-2007)

Figures 11 and 12 show the top ten Illinois commercial automobile liability writers for 2007 and 2006.

Pursuant to Part 4203, data are collected for specified classes of commercial automobile liability insurance through the Cost Containment filings. The four classes of business are fleet combined trucks, tractors and trailers, non-fleet combined trucks, tractors and trailers, fleet taxicabs and public livery, and non-fleet taxicabs and public livery.

The following are the top ten writers of commercial automobile insurance for the combined four classes in Illinois for 2007.

Transgaurd Insurance Co of America Inc.	7.5%
American Service Insurance Co. Inc.	5.8%
Cincinnati Insurance Co.	5.3%
Lincoln General Insurance Co.	4.6%
Northland Insurance Co.	4.2%
West Bend Mutual Insurance Co.	3.3%
Progressive Premier Insurance Co. of IL	2.8%
Great West Casualty Co.	2.8%
American Country Insurance Co.	2.6%
<u>Country Mutual Insurance Co.</u>	<u>2.5%</u>
Percent of total market	41.4%

The combined fleet and non-fleet coverage for trucks, tractors, and trailers market remains very competitive in Illinois. There were 224 companies that wrote coverage in these two classes in 2007, with 71 companies writing in excess of \$1 million in premium.

The top writers in this market are:

Transgaurd Insurance Co of America Inc.	8.5%
American Service Insurance Co. Inc.	6.0%
Cincinnati Insurance Co.	5.2%
Lincoln General Insurance Co.	4.7%
Northland Insurance Co.	3.8%
West Bend Mutual Insurance Co.	3.2%
Progressive Premier Insurance Co. of IL	3.2%
Great West Casualty Co.	2.9%
American Country Insurance Co.	2.9%
<u>Country Mutual Insurance Co.</u>	<u>2.8%</u>
Percent of total market	43.1%

There were 52 companies that wrote coverage in the fleet or non-fleet taxicabs and public livery classes in Illinois in 2007. Of these, the top ten largest writers accounted for 97.1% of all premiums written for this type of business, with the top two making up 71.3%. These two insurers are part of the same group of companies. American Country Insurance Company, the second largest insurer of this type of business, insures the two largest taxicab firms in Chicago and the State of Illinois. The Division carefully monitors this market because of their significant market share.

American Service Insurance Co. Inc.	45.6%
American Country Insurance Co.	25.7%
Lancer Insurance Co.	6.6%
Sentry Select Insurance Co.	6.4%
Allied Property & Casualty Insurance Co.	4.9%
Rockford Mutual Insurance Co.	2.8%

Selective Insurance Co. of SC	1.7%
Northland Insurance Co.	1.5%
Empire Fire & Marine Insurance Co.	1.2%
<u>Gateway Insurance Co.</u>	<u>0.6%</u>
Percent of total market	97.1%

Medical Malpractice HHI

Figure 13 provides a graph of the HHI for Illinois medical malpractice coverage from 2003 through 2007. As is the case for most other states, the largest writer in Illinois of medical malpractice coverage is a physician-affiliated exchange. In Illinois that provider is the ISMIE Mutual Insurance Company, which wrote 67.8 percent of the medical malpractice coverage in 2007. The second largest medical malpractice insurer, by direct written premium, was American Physicians Assurance Corp., which wrote only 6.4 percent of the business. As the chart shows, the market continues to be highly concentrated with an HHI well above the 1800 level.

Figure 13

Illinois Market Concentration - Medical Malpractice (2003-2007)

Figures 14 and 15 show the top ten Illinois medical malpractice writers and their market shares for 2007 and 2006.

Within the other liability line of business, the Division collects cost containment data for three main classes of coverage. These are liquor liability, lawyers' professional liability and commercial day care liability.

The top ten insurers by market share for other liability coverage in Illinois for all three of the above-mentioned classes combined in 2007 were:

Underwriters At Lloyds London	20.7%
Continental Casualty Co.	20.5%
Illinois State Bar Assn. Mutual Insurance Co.	15.4%
Chicago Insurance Co.	7.4%
Illinois Casualty Co. A Mutual Co.	5.6%
American Guaranty & Liability Insurance	3.8%
Founders Insurance Co.	2.2%
Executive Risk Indemnity Inc	2.1%
First Financial Insurance Co.	1.7%
<u>Westchester Fire Insurance Co.</u>	<u>1.5%</u>
Percent of total market	80.9%

The following identifies the top insurers by market share for the individual classes identified above. In 2007, one hundred and seven companies wrote liquor liability coverage in Illinois. Six reported premium in excess of \$1 million. The top 10 writers in the liquor liability market in Illinois for 2007 are:

Illinois Casualty Co. A Mutual Co.	25.6%
Underwriters At Lloyds London	21.9%
Founders Insurance Co.	10.1%
First Financial Insurance Co.	7.7%
Badger Mutual Insurance Co.	6.6%
RSUI Indemnity Co.	4.7%
Constitutional Casualty Co.	4.0%
Springfield Fire & Casualty	3.9%
Capitol Indemnity Corp.	3.0%
<u>North Pointe Insurance Co.</u>	<u>1.6%</u>
Percent of total market	89.0%

The top ten writers of lawyers' professional liability insurance are:

Continental Casualty Co.	27.3%
Underwriters At Lloyds London	21.2%
Illinois State Bar Assn Mutual Ins Co.	20.5%
Chicago Insurance Co.	9.8%
American Guaranty & Liability Insurance	5.0%
Executive Risk Indemnity Inc.	2.8%
Westchester Fire Ins Co.	2.0%
Greenwich Insurance Co.	1.9%
Navigators Insurance Co.	1.6%
<u>St Paul Fire & Marine Insurance Co.</u>	<u>1.4%</u>
Percent of total market	93.7%

For commercial daycare insurance, the top ten writers of this coverage in Illinois during 2007 were:

West Bend Mutual Insurance Co.	40.2%
Capitol Indemnity Corp.	14.0%
Riverport Insurance Co.	11.3%
Philadelphia Indemnity Insurance Co.	8.3%
Markel Insurance Co.	5.6%
Cincinnati Insurance Co.	3.7%
Church Mutual Insurance Co.	3.5%
Brotherhood Mutual Insurance Co.	2.0%
Stonington Insurance Co.	1.9%
<u>Guideone Mutual Insurance Co.</u>	<u>1.3%</u>
Percent of total market	91.8%

Additionally, home daycare liability, which may be attached to a residential homeowner's coverage form is available. Insurers writing coverage for home daycare in Illinois in 2007 were:

State Farm Fire and Casualty Co.	66.4%
Country Mutual Insurance Co.	14.6%
Allstate Indemnity Co.	10.6%
<u>Allstate Insurance Co.</u>	<u>6.4%</u>
Percent of total market	98.0%

Market Shares of Residual Market Mechanisms

States establish residual market mechanisms to provide coverage for consumers who are unable to buy coverage in the voluntary market. Illinois residual market mechanisms provide essential insurance coverage for the hard-to-place risk at rate levels approved by the Division. Illinois has residual market mechanisms for three lines of insurance: property, automobile, and workers' compensation.

Property - The Illinois FAIR Plan Association (FAIR Plan)

Fire and homeowners' insurance are placed directly through the FAIR Plan. Both personal and commercial insurance is available. Insurance companies share in the FAIR Plan's profits and losses in proportion to their voluntary market shares.

In Illinois, property insurance is widely available in the voluntary marketplace and only a very small percentage of consumers obtain coverage through the FAIR Plan. In addition, Illinois consumers are not at a coverage disadvantage when they buy insurance from the FAIR Plan, as is the case in many other states. In other states, property residual market programs offer only dwelling fire or basic homeowners' policies. Illinois has one of the most progressive plans in the nation. Through the FAIR Plan, Illinois consumers can buy virtually the same coverages that are available in the voluntary marketplace, including guaranteed replacement cost, sewer

back-up, earthquake, and building ordinance and law endorsements.

Figure 19 shows the total amount of dwelling and homeowners' premium written by the FAIR Plan as well as a percentage of all dwelling and homeowners' premium written in Illinois from 2003 through 2007.

Figure 19

**Written Premiums for Illinois FAIR Plan
(2003-2007)**

	Amount of Written Premiums	As % of Total Written Premiums
2003	\$9,800,000	0.49%
2004	\$11,030,119	0.52%
2005	\$9,073,367	0.41%
2006	\$7,018,505	0.31%
2007	\$6,047,739	0.26%

Source: Premium amounts provided by Illinois FAIR Plan

Automobile - The Illinois Automobile Insurance Plan (Auto Plan)

Private passenger automobile risks are assigned to private passenger automobile insurers on a rotational basis in proportion to their voluntary market shares. Assignments stay with the company and are not shared with other writers. Commercial automobile risks are placed through servicing companies. Losses are divided among the voluntary writers of commercial automobile insurance in proportion to their share of the voluntary business.

Figure 20 shows the 2003 through 2007 market shares for the Illinois Automobile Insurance Plan compared to nationwide data. The percent of written car-years is derived by dividing the number of written car-years insured through the residual market by the total number of written car-years insured through the voluntary market. Note that Illinois has a significantly smaller number of automobiles in the residual market than the nationwide composite.

The percent of insured automobiles in the Illinois Automobile Insurance Plan was three hundredths of a percent of the total market in 2006. This figure reinforces the fact that the voluntary auto insurance market in Illinois is extremely competitive.

Figure 20

**Percent of Automobiles in the Illinois Assigned Risk Plan
and the United States Composite Automobile Residual Market
(2003-2007)**

	2003	2004	2005	2006	2007
Illinois	0.06%	0.05%	0.04%	0.03%	0.02%
Nationwide	0.54%	1.43%	1.27%	1.21%	1.10%

Source: AIPSO Facts 2009 (based on liability car-years)

Workers' Compensation - The Illinois Workers' Compensation Assigned Risk Pool (Pool)

Several insurers act as servicing carriers for the Illinois Workers' Compensation Assigned Risk Pool. Losses are divided among the voluntary writers of workers' compensation in proportion to their shares of the voluntary business.

Figure 21 shows the percent of Illinois workers' compensation premiums written through the Pool from 2003 through 2007. The chart shows the amount of business being written in the residual market. During 2007, only four percent of Illinois direct premiums written for workers' compensation were written through the Pool.

The numbers illustrated in Figure 21 are from the NCCI and may not reconcile with numbers found in previous reports.

Figure 21**Percent of Illinois Workers' Compensation Written Through the Pool (2003-2007)**

	2003	2004	2005	2006	2007
Percent of Total	10.0%	7.8%	6.2%	4.7%	4.0%

Source: National Council on Compensation Insurance (NCCI)

All insurers who write Workers' Compensation insurance are assessed a fee to fund the Assigned Risk Plan. The Take-Out Program allows each insurer that removes an employer insured through the Plan to be eligible for a credit against the fee's they are assessed. **Figure 22** shows the Take-Out Credit results for 2006 and 2007.

Figure 22 Illinois Take-Out Credit Results in 2006 and 2007

Year	Total Number of Policies Approved	Approved Credit

Participation in Alternative Risk Transfer Mechanisms

Traditionally, the level of participation in alternative markets is an indicator of how well the admitted market is doing at providing coverage or providing coverage at prices consumers perceive to be reasonable. Therefore, to assess the insurance marketplace in terms of availability one must look at the level of activity in these alternative markets.

One problem with the non-admitted market is the lack of means by which it can be monitored. Because of the Division's limited authority over many of the alternative mechanisms, the number of risks placed and the amount of premium written cannot be assessed and a complete picture of this aspect of the insurance marketplace is unattainable. This problem has become more prevalent as the size of the transfer of risk alternative markets continues to grow.

Surplus lines refers to insurance written by a non-admitted (unlicensed) insurer through a licensed surplus lines producer. The licensed producer must exercise due diligence in protecting the insured since the Division has less jurisdiction over unlicensed companies and the Illinois Insurance Guaranty Fund provides no protection for the consumer. Thus, it is the producer and not the Division who must determine the company's financial stability and standards of management prior to submitting the risk.

Figure 24 shows the number of policies written in Illinois from 2003 to 2007 through surplus lines producers for homeowners', private passenger auto liability and physical damage, commercial auto liability, medical malpractice, and general liability coverage.

Figure 24

Surplus Lines - Number of primary and excess policies written in Illinois (2003 - 2007)

Line of Business	2003 Illinois Policy Count	2004 Illinois Policy Count	2005 Illinois Policy Count	2006 Illinois Policy Count	2007 Illinois Policy Count
Homeowners'	1,340	860	535	352	357
PPA Liability	410	293	189	124	157
PPA Physical Damage	7,210	9,074	7,426	5,722	7,049
Commercial Auto Liability	22	55	77	148	121
Medical Malpractice	701	752	892	940	1,160
General Liability	20,857	25,310	26,137	25,696	29,001

INEX (previously the Illinois Insurance Exchange) provides a market for direct insurance and reinsurance. It is comprised of syndicates which underwrite and insure risks, and brokers who are authorized to place business with those syndicates. Fashioned after Lloyd's of London, INEX serves as a facilitator, record keeper and regulator for the operations of its members. INEX submits an annual financial statement to the Division reflecting both its combined financial position and the financial position of each individual syndicate.

Insurance Pools are groups that join together for the purpose of sharing certain risks on an agreed-upon basis. Participants may consolidate their risk exposures without being subject to the same regulatory requirements as admitted insurers. Pools organized under the following Acts are allowed in Illinois:

The Workers' Compensation Act allows entities that are members of a trade association or that have similar risk characteristics to form a risk-sharing pool. Each pool must submit annual financial statements, CPA audited reports, and actuarial opinions to the Division and are subject to examination by the Director.

The Religious and Charitable Risk Pooling Trust Act permits entities having an IRS 501c(3) exemption (a non-profit entity) or hospitals owned and operated by a unit of local government to form a trust to pool their risks. These trust funds can only operate with prior approval of the Director. The trusts must make annual CPA audited reports to the Division and are subject to examination by the Director.

The Intergovernmental Cooperation Act enables units of local government to enter into a pooling arrangement with other similar entities for the purpose of risk sharing. These pooling arrangements are not regulated by the Division, however, they must register with the Division and file annual audited financial statements.

Risk Retention and Purchasing Groups are allowed under the Federal Liability Risk Retention Act of 1986. This Act eliminated barriers to group self-insurance programs by allowing them to buy group liability insurance. At the end of year 2007, there were 433 registered purchasing groups, 109 registered foreign risk retention groups and one registered domestic risk retention group.

Captive Insurance Companies may be formed by:

- A company or group of companies to insure their own risks and exposures;
- An association to insure the member organizations; or by
- Industrial insured groups.

Illinois captives are regulated by the Division. They are required to file certain financial information with the Division and are subject to examination by the Director.

Self-insurance occurs when individuals or businesses retain their own risks. Entities that self-insure are under no obligation to report premiums, losses, or expenses to any statistical association or regulatory body.

Profitability

In monitoring competition in general and price performance in particular, the Division does not examine individual insurer prices for appropriateness. Instead, it monitors the effectiveness of competition, examining the pattern of profits throughout the market.

In examining profitability, the Director must balance the seemingly divergent concerns of consumers and insurers. To protect consumers, rates must not be excessive. To ensure insurance company solvency, rates should be adequate to cover the risk assumed as well as company viability and profitability. There is a fine line between rates that are excessive and rates that are inadequate, especially since insurance policies must be priced long before the results of the pricing decisions are known.

The Division must also be concerned about the long-term viability of the insurance marketplace, including the financial viability of the companies that insure consumers.

Illinois-specific Underwriting Results Compared to Countrywide Results

For each of the coverages listed below, this section contains:

1. Combined underwriting results for business written in Illinois and business written countrywide; and
2. A five-year trend for Illinois losses as a percent of premiums earned, compared to the five-year trend for countrywide losses.

Personal Lines Insurance

In **Figures 25** through **36** “countrywide” data reflects nationwide premiums generated by Illinois licensed insurers. This data comes from the Insurance Expense Exhibit Part III.

Homeowners

Figure 25 shows a comparison of the underwriting results of homeowners insurance written in Illinois with that written nationwide during 2007. As figure 25 shows, incurred losses in Illinois for the year were higher than the nationwide losses.

Figure 25

Homeowners’ Underwriting Results (2007)

Homeowners (\$000 omitted)	Illinois*	Countrywide**
Direct written premiums	\$2,353,766	\$46,205,460
Direct earned premiums	\$2,321,924	\$45,545,408
Expenses (% premium)		
Incurred losses	62.6%	52.9%
Def. & cost cont. exp. Incurred	1.2%	1.5%
Comm./brokerage	13.7%	13.4%
Taxes, licenses & fees	1.4%	2.5%

Figure 26 compares the five-year trend for loss percentages in Illinois and countrywide in the homeowners line of business.

Figure 26

**Homeowners Losses
as a percent of Premiums Earned
(2003-2007)**

Private Passenger Automobile

Figure 27 compares the underwriting results of private passenger automobile insurance written in Illinois with that written countrywide during 2007. Losses incurred in the private passenger automobile line of business were comparable to nationwide losses.

Figure 27

Private Passenger Auto Underwriting Results (2007)

Private Passenger Auto (\$000 omitted)	Illinois*	Countrywide**
Direct written premiums	\$5,577,019	\$122,422,949
Direct earned premiums	\$5,582,022	\$122,662,919
Expenses (% premium)		
Incurred losses	61.1%	61.4%
Def. & cost cont. exp. incurred	2.6%	2.2%
Comm./brokerage	10.4%	8.6%
Taxes, licenses & fees	1.2%	2.3%

*Source: NAIC State Data Network, 2007 Illinois State Page Exhibit.

**Source: NAIC State Data Network 2007 Insurance Expense Exhibit Part III Illinois-licensed insurers.

Figure 28 shows the five-year trend for loss percentages in the private passenger automobile line for Illinois and countrywide. As the chart shows, the Illinois private passenger automobile loss percentages have trended close to countrywide loss percentages over the past five years.

Figure 28

**Private Passenger Auto Losses
as a percent of Premiums Earned
(2003-2007)**

Commercial Automobile Liability

Figure 29 shows that the underwriting results in the Illinois commercial automobile liability line during 2007 were similar to those countrywide.

Figure 29

Commercial Automobile Liability Underwriting Results (2007)

Commercial Auto Liability (\$000 omitted)	Illinois*	Countrywide**
Direct written premiums	\$825,904	\$17,492,597
Direct earned premiums	\$849,609	\$17,612,268
Expenses (% premium)		
Incurring losses	53.8%	54.1%
Def. & cost cont. exp. incurred	7.5%	6.6%
Comm./brokerage	14.1%	14.2%
Taxes, licenses & fees	1.6%	2.7%

*Source: NAIC State Data Network, 2007 Illinois State Page Exhibit.

**Source: NAIC State Data Network 2007 Insurance Expense Exhibit Part III Illinois-licensed insurers.

Figure 30 compares the five-year trend for loss percentage for Illinois and countrywide commercial automobile liability. The trend over the past five years in loss percentages in Illinois has been very similar to losses countrywide.

Figure 30

Commercial Auto Liability Losses as a percent of Premiums Earned (2003-2007)

Medical Malpractice

Figure 31 shows the underwriting results for the medical malpractice market in Illinois and countrywide for 2007.

Figure 31

Medical Malpractice Underwriting Results (2007)

Medical Malpractice (\$000 omitted)	Illinois *	Countrywide**
Direct written premiums	\$538,170	\$4,822,475
Direct earned premiums	\$545,887	\$4,897,090
Expenses (% premium)		
Incurring losses	42.4%	33.1%
Def. & cost cont. exp. incurred	31.3%	22.5%
Comm./brokerage	7.3%	9.0%
Taxes, licenses & fees	1.1%	2.0%

*Source: NAIC State Data Network, 2007 Illinois State Page Exhibit
 **Source: NAIC State Data Network 2007 Insurance Expense Exhibit Part III, Illinois-licensed insurers.

Figure 32 compares the five-year loss percentages trend for Illinois and countrywide medical malpractice insurance. After soaring to over 150% of earned premium in 2002, losses in Illinois have dropped each year.

Figure 32

Medical Malpractice Losses as a percent of Premiums Earned (2003-2007)

Other Liability

Figure 33 compares the underwriting results between Illinois and countrywide for the other liability line of business.

Figure 33

General Liability Underwriting Results (2007)

Other Liability (\$000 omitted)	Illinois*	Countrywide**
Direct written premiums	\$2,712,543	\$39,859,852
Direct earned premiums	\$2,578,838	\$39,256,563
Expenses (% premium)		
Incurred losses	74.4%	53.4%
Def. & cost cont. exp. incurred	17.8%	13.1%
Comm./brokerage	8.6%	12.4%
Taxes, licenses & fees	2.0%	2.3%

*Source: NAIC State Data Network, 2007 Illinois State Page Exhibit

**Source: NAIC State Data Network 2007 Insurance Expense Exhibit Part III, Illinois-licensed insurers.

Figure 34 compares the five-year trend for loss percentages for Illinois and countrywide for other liability insurance. Losses as a percent of earned premium in Illinois in the other liability line of business experienced a significant increase while the national percent remained steady.

Figure 34

**Other Liability Losses
as a percent of Premiums Earned
(2003-2007)**

Workers' Compensation

Beginning in 2004, the loss ratio in the workers' compensation market in Illinois has been above the national loss ratio, but declined from 2006 to 2007.

Figure 35 shows a comparison of the underwriting results in 2007 in the workers' compensation line of business between Illinois and nationwide.

Figure 35

Workers' Compensation Underwriting Results (2007)

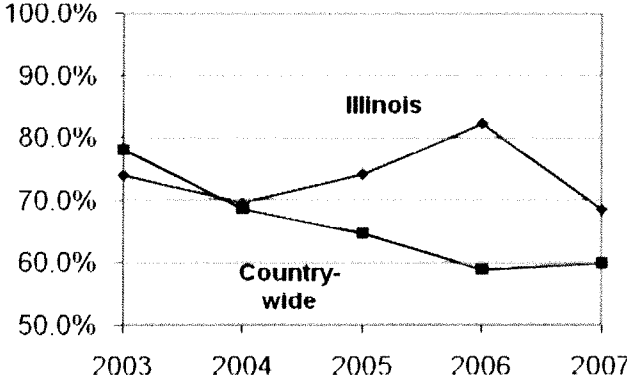

Workers' Compensation (\$000 omitted)	Illinois *	Countrywide**
Direct written premiums	\$2,677,332	\$35,154,782
Direct earned premiums	\$2,599,545	\$34,659,050
Expenses (% premium)		
Incurring losses	68.6%	60.0%
Def. & cost cont. exp. incurred	5.0%	5.9%
Comm./brokerage	6.6%	7.1%
Taxes, licenses & fees	2.7%	4.7%

*Source: NAIC State Data Network, 2007 Illinois State Page Exhibit
 **Source: NAIC State Data Network 2007 Insurance Expense Exhibit Part III, Illinois-licensed insurers.

Figure 36 shows workers' compensation losses as a percent of earned premium for the years 2003 through 2007. Workers' compensations losses as a percent of earned premium in Illinois increased from 2004 to 2006, but declined in 2007.

Figure 36

Workers' Compensation Losses as a percent of Premiums Earned (2003-2007)

Reliability

In determining whether the overall marketplace is viable the Division must consider:

1. Profitability.
2. Financial Solvency Regulation.

Businesses that provide a financial service must be financially sound. An insurance contract has little value to the insured if there is no guarantee that the insurance company will have the money to pay claims when needed.

One measure of a company's financial performance is its profitability. It must generate enough profit to survive and succeed. In a given month, if expenses exceed income they must be paid from the reserve fund. If the trend continues, reserve funds run out causing the business to collapse. Therefore, it is imperative that insurance companies manage income and expenses to assure profitability and survival.

A company that can offer insurance coverage at competitive prices and reap adequate profits is considered to be financially viable. When the majority of insurers in the market are competitive and profitable, the market is considered to be financially strong.

Profitability

Change in Policyholders Surplus

One measure of overall profitability is the change in policyholders' surplus from one year to the next. Policyholders' surplus is made up of: 1) underwriting gains or losses; 2) investment gains or losses; and 3) net contributed capital and other surplus changes.

Figure 37 shows the percent change in policyholders' surplus for the Illinois-licensed property/casualty industry as a whole over the past five years.

Figure 37

Percent Change in Policyholders' Surplus

Source: NAIC State Data Network

Figure 38 shows income from investments, net income, unrealized capital gains/losses and policyholders' surplus from 2003 to 2007.

Figure 38

**Net Investment Income Earned, Net Income,
Unrealized Capital Gains/Losses and Policyholders' Surplus (in millions)**

	2003	2004	2005	2006	2007
Net Investment gain	\$40,893	\$44,952	\$53,915	\$53,434	\$59,558
Net Income	27,199	36,488	39,675	61,230	56,685
Unrealized Capital Gains/Losses	30,624	17,189	4,096	28,677	8,131
Policyholders' Surplus	365,589	408,140	441,620	498,408	531,200

Source: NAIC State Data Network

Underwriting Gains/Losses

Figure 39 shows the aggregate underwriting gain/loss for Illinois-licensed insurers from 2003-2007. The property/casualty industry experienced a significant underwriting gain in 2007.

Figure 39

Aggregate Net Underwriting Gain (Loss) (in millions)

	2003	2004	2005	2006	2007
Premiums earned	\$325,159	\$344,724	\$344,913	\$359,332	\$362,387
Losses incurred	200,092	206,102	213,774	191,391	205,225
Loss expenses incurred	41,892	44,217	45,351	42,950	42,990
Other underwriting expenses incurred	85,604	88,666	90,570	96,724	98,687
Dividends to policyholders	<u>1,197</u>	<u>978</u>	<u>1,040</u>	<u>2,540</u>	<u>1,359</u>
Net underwriting gain/loss	(\$3,626)	4,761	(5,822)	25,727	14,126

Source: NAIC State Data Network

Net Investment Income Ratio

One component of surplus is income derived from investments. The net investment income ratio measures income from invested assets relative to earned premiums. It is calculated by dividing net investment income (income from invested assets less investment expenses and depreciation on real estate) by earned premium.

Figure 40 shows the net investment income ratio for Illinois-licensed property/casualty insurers during the most recent five-year period. This ratio shows the investment income component of overall profitability.

Figure 40

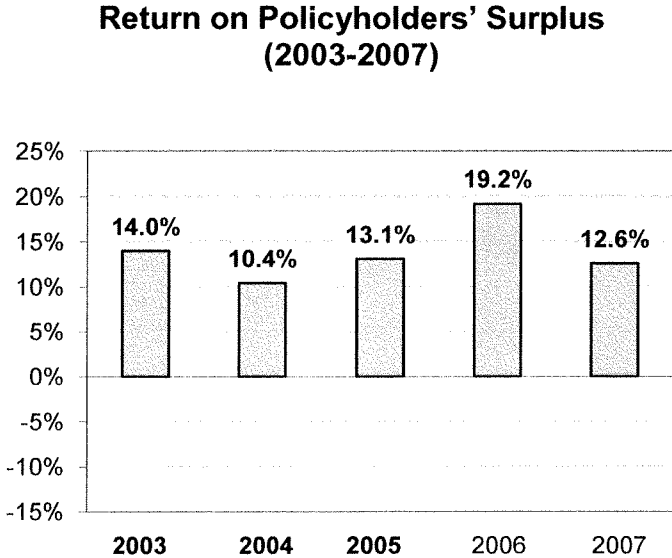

Source: NAIC State Data Network

Return on Policyholders' Surplus

Another measure of overall profitability is the return on policyholders' surplus. It is the sum of net income after dividends and taxes and unrealized capital gains divided by the average of the current year and prior year's policyholders' surplus.

Figure 41 shows the aggregate return on policyholders' surplus from 2003 through 2007 for the Illinois-licensed property/casualty industry combined.

Figure 41

Source: NAIC State Data Network

Financial Solvency Regulation

Although the Division cannot guarantee an Illinois-licensed insurer's profitability, we do monitor the financial solvency and strength of Illinois-licensed insurers in several ways including:

1. Maintaining a staff of trained accountants and specialists who identify a company's developing financial difficulties so that the Division can step in to minimize potential losses to Illinois policyholders;
2. Working closely with insurance companies with identified financial difficulties to minimize potential risk to policyholders, while attempting to resolve manageable problems or determine the need for rehabilitation or liquidation;
3. Employing field examiners for on-site evaluation of insurance company financial records;
4. Reviewing operations and compliance issues through scheduled, targeted, and special exams of known or suspected problems;
5. Maintaining a staff of actuaries who monitor the adequacy of loss reserves, cash flow testing, and proper valuation of assets;
6. Licensing and registering the many types of insurers, surplus lines producers, and risk sharing pools authorized by the Illinois Insurance Code and related Acts; and
7. Investigating unauthorized organizations or individuals thought to be conducting illegal insurance operations and taking regulatory action to remove them from the market to protect consumers from fraudulent activities.

**APPENDIX C – Consolidated Statement of Income for Illinois-licensed
Property/Casualty Insurers for the year ending December 31, 2007**

UNDERWRITING INCOME		Current Year	Prior Year
1	Premiums earned	\$362,386,586,755	\$359,651,746,006
2	Losses incurred	205,225,168,972	191,609,293,596
3	Loss expenses incurred	42,990,228,539	43,015,350,620
4	Other underwriting expenses incurred	98,687,131,314	96,776,552,799
5	Aggregate write-ins for underwriting deductions	(804,028,103)	93,620,867
6	Total underwriting deductions	346,098,500,715	331,494,817,879
7	Net income of protected cells		
8	Net underwriting gain (loss)	16,288,086,048	28,156,928,130
INVESTMENT INCOME			
9	Net investment income earned	51,410,530,837	51,060,959,538
10	Net realized capital gains (losses) less capital gains tax of \$(1)	8,147,116,539	2,464,862,242
11	Net investment gain (loss)	59,557,647,380	53,525,821,776
OTHER INCOME			
12	Net gain (loss) from agents' or premium balances charged off (amount recovered \$(1) amount charged off \$(2))	(1,091,767,877)	(993,344,532)
13	Finance and service charges not included in premiums	2,091,698,906	1,912,077,226
14	Aggregate write-ins for miscellaneous income	(2,692,311,223)	(524,319,110)
15	Total other income	(1,692,380,199)	394,413,572
16	Net income before dividends to policyholders, after capital gains tax and before all other federal and foreign income taxes	74,153,353,214	82,077,163,467
17	Dividends to policyholders	1,358,702,643	2,540,881,195
18	Net income, after dividends to policyholders, after capital gains tax and before all other federal and foreign income taxes	72,794,650,572	79,536,282,280
19	Federal and foreign income taxes incurred	16,109,785,026	18,195,566,581
20	Net income	56,684,865,543	61,340,715,699
CAPITAL and SURPLUS ACCOUNT			
21	Surplus as regards policyholders, December 31 prior year	499,033,336,048	436,854,753,584
22	Net income	56,684,865,543	61,340,715,699
23	Net transfers (to) from protected cell accounts	-	-
24	Change in net unrealized capital gains or (losses) less capital gains tax of \$(1)	8,130,277,640	28,672,612,038
25	Change in net unrealized foreign exchange capital gain (loss)	812,321,433	98,772,679
26	Change in net deferred income tax	1,806,319,962	225,226,594
27	Change in nonadmitted assets	(4,572,567,781)	(1,347,595,512)
28	Change in provision for reinsurance	748,650,885	333,675,160
29	Change in surplus notes	(412,056,544)	(432,974,510)
30	Surplus (contributed to) withdrawn from protected cells	-	-
31	Cumulative effect of changes in accounting principles	5,864,594	31,765,873
32.1	Capital changes paid in	64,073,655	51,744,111
32.2	Capital changes transferred from surplus (stock dividend)	(195,318)	5,940,806
32.3	Capital changes transferred to surplus	(26,993,998)	(4,230,000)
33.1	Surplus adjustments paid in	2,308,230,558	1,270,426,414
33.2	Surplus adjustments transferred to capital (stock dividend)	(13,839,542)	(5,634,286)
33.3	Surplus adjustments transferred from capital	(762,458,058)	414,324
34	Net remittances from or (to) home office	30,906,516	(74,637,449)
35	Dividends to stockholders	(34,304,564,817)	(27,557,297,049)
36	Change in treasury stock	(10,137,724)	598,591,736
37	Aggregate write-ins for gains and losses in surplus	1,677,733,388	(1,028,934,128)
38	Change in surplus as regards policyholders for the year	32,166,430,380	62,178,582,488
39	Surplus as regards policyholders, December 31 current year	531,199,766,433	499,033,336,057
