III. METHODOLOGY

The Market Conduct examination places emphasis on evaluating an insurer's systems and procedures in dealing with insureds and claimants.

The following categories are the general areas examined:

1. Risk Selection
2. Underwriting
3. Producer Licensing – New Business
4. Claims
5. Complaints

The review of these categories is accomplished through examination of individual underwriting and claim files, written interrogatories, interviews with company personnel, analysis of policy forms and endorsements, and verification of computer rating accuracy. Each of these categories is examined for compliance with Department Rules and Regulations and applicable state law.

The report concerns itself with improper practices performed with such frequency as to indicate general business practices. Individual files criticized are identified and communicated to the insurer but not cited in the report if not indicative of a general trend, except if there were underpayments and/or overpayments in claim surveys or undercharges and/or overcharges in underwriting surveys.

The following methods were used to obtain the required samples to assure methodical selection.

Risk Selection

Cancellations and nonrenewals were requested on the basis of the effective date of the transaction falling within the period under examination. They were reviewed for compliance with statutory requirements, the accuracy and validity of reasons given and for any possible discrimination.

Underwriting

New files were selected based on the inception date falling within the period under examination. New policies were reviewed for rating accuracy, use of filed rates, use of filed forms, compliance with company underwriting guidelines and to insure that the protection provided was as requested.

Commercial Renewals were selected based upon those policies that renewed during the experience period.

Producer Licensing

Licensing was checked on the agent/producer of record for the new business files that were under examination.

Claims

Claims were requested based on the settlement occurring within the period under examination. All claims were reviewed for compliance with policy contracts and endorsements, applicable sections of the Illinois Insurance Code (215 ILCS 5/1 et seq.) and Part 919 (50 Ill. Adm. Code 919).

Complaints

Complaints requested were those received by the Company during the experience period.

IV. FINDINGS

A. Risk Selection

1. Private Passenger Auto Cancellations

A total of 72 policy cancellations were examined. In one (1) of those files (1.39%) the company was in violation of 215 ILCS 5/143.15. In one (1) file the company failed to provide at least 30 days notice.

2. Private Passenger Auto Nonrenewals

The examiner asked for the notice of nonrenewal and proof of mailing for 85 files. The company failed to provide the notice and proof of mailing for three (3) files (3.53% of the 85 requested) and were in violation of 215 ILCS 5/132(2).

3. Homeowner Cancellations

Seventy-three homeowner policies were in effect 60 days or more when the notice of cancellation was mailed to the insured. When a policy of fire and extended coverage has been effective 60 days or if such policy is a renewal policy, the company shall not exercise its right to cancel except for one or more reasons described in 215 ILCS 5/143.21. In 12 files (16.44% of the 73) the reason for cancellation was not one of those described and a General Trend Criticism was issued.

The examiner requested the cancellation notice and proof of mailing for 115 files. The company failed to provide the notice and proof of mailing for two (2) files (1.74% of the 115 requested) and were in violation of 215 ILCS 5/132(2).

Ninety-seven notices and/or proofs of mailing were examined. In one (1) of these 97 files (1.03%), the company was in violation of 215 ILCS 5/143.14 for failing to maintain the proof of mailing. In one (1) file, there was no postmark.

4. Homeowner Nonrenewals

Fifteen policies were nonrenewed in part or entirely due to the condition of the insured property. As outlined in 215 ILCS 5/143.27, no insurance company may give to any named insured any notice of cancellation or nonrenewal covering property which is capable of being rehabilitated without allowing the named insured a reasonable period of time in which to repair defects in the insured property or relevant portion thereof, to an extent reasonably sufficient to facilitate continued coverage thereon. The time reasonably allowable shall not exceed 90 days. A notice of the need for the repairs shall be from the insurance company. In three (3) files (20.00% of the 15 files requiring the notice) the company failed to provide a notice to the named insured. In two (2) files the notice was sent to the agent but not sent to the insured. In the third file, there was no rehab letter sent at all. The company was in violation of 215 ILCS 5/143.27 and a General Trend Criticism is applicable for the error percentage of 20.00%.

Twelve files (12.90% of the 93 nonrenewals reviewed) were in violation of 215 ILCS 5/143.17. In five (5) files there was no type of post office proof of mailing. In three (3) files the policy was neither renewed or nonrenewed. In three (3) files the company indicated the policy was nonrenewed but there was no notice or proof of mailing and in one (1) file the company failed to provide at least 30 days advance notice of nonrenewal. A General Trend Criticism was issued.

In four (4) files (4.30% of the 93 examined) the company was in violation of 215 ILCS 5/141.01 for sending a "NOTICE OF NONRENEWAL HOMEOWNERS INSURANCE" to the insured indicating in the letter that the agent no longer represents the company and "...we regret that we will not be able to renew your current policy." The letter also reads "Your coverage will end on the EXPIRATION DATE show above." This was a violation of 215 ILCS 5/141.01 for terminating policies on the grounds that the agent through whom such policy was obtained has been terminated notwithstanding the fact that the company indicated it would provide assistance to the insured in locating an agent through whom the policy could be renewed. There were other notices that read the company will renew the policy if the insured does not contact them but in these four (4), there was no such verbiage.

5. Dwelling Fire Cancellations

Five policies were canceled in part or entirely due to the condition of the insured property. As outlined in 215 ILCS 5/143.27, no insurance company may give to any named insured any notice of cancellation or nonrenewal covering property which is capable of being rehabilitated without allowing the named insured a reasonable period of time in which to repair defects in the insured property or relevant portion thereof, to an extent reasonably sufficient to facilitate continued coverage thereon. The time reasonably allowable shall not exceed 90 days. A notice of the need for the repairs shall be from the insurance company. In one (1) file (20.00% of the five (5) files requiring the notice) the company failed to provide a notice to the named insured. The company was in violation of 215 ILCS 5/143.27 and a General Trend Criticism is applicable for the error percentage of 20.00%.

A total of 68 policy cancellations were examined. In three (3) of those files (4.41%) the company was in violation of 215 ILCS 5/143.15 for failing to include on the notice of cancellation a specific explanation of the reason or reasons for cancellation. The explanations were not specific, clear, complete and easily understood.

6. Dwelling Fire Nonrenewals

Twenty-four policies were nonrenewed in part or entirely due to the condition of the insured property. As outlined in 215 ILCS 5/143.27, no insurance company may give to any named insured any notice of cancellation or nonrenewal covering property which is capable of being rehabilitated without allowing the named insured a reasonable period of time in which to repair defects in the insured property or relevant portion thereof, to an extent reasonably sufficient to facilitate continued coverage thereon. The time reasonably allowable shall not exceed 90 days. A notice of the need for the repairs shall be from the insurance company. In four (4) files (16.67% of the 24 files requiring the notice) the company failed to provide a notice to the named insured. A General Trend Criticism is applicable for the error percentage of 16.67%.

Sixty-seven dwelling fire nonrenewal files were reviewed. Five files (7.46% of the 67 reviewed) were in violation of 215 ILCS 5/143.17. In four (4) files the company could provide no proof of mailing at all and in one (1) file the policy was neither renewed or nonrenewed.

7. Commercial Auto Cancellations

Seventeen commercial auto cancellations were reviewed and seven (7) cancellations (41.18%) were in violation of 215 ILCS 5/143.16. Three (3) notices provided neither the correct number of days advance notice of cancellation nor a specific explanation of the reason or reasons for cancellation. Three notices failed to provide the correct number of days advance notice of cancellation and one (1) notice failed to provide a specific explanation of the reason or reasons for cancellation. A General Trend Criticism was issued.

The company failed to send loss information to the first named insured at the same time as the notice of cancellation in five (5) of the 17 files examined (29.41%). A General Trend Criticism was issued for violation of 215 ILCS 5/143.10a.

Thirteen policies had been in effect for 60 days or more when the notice of cancellation was mailed to the named insured. As outlined in 215 ILCS 5/143.16a, when a commercial policy has been effective for 60 days, the company shall not exercise its right to cancel except for one (1) of six (6) reasons. Three policies (23.08% of the 13 reviewed) were canceled for reasons not permitted. A General Trend Criticism was issued.

8. Commercial Auto Nonrenewals

Eighty-three commercial auto nonrenewals were examined. The company failed to send loss information to the first named insured at the same time as the notice of nonrenewal in 7 files (8.43% of the 83 examined) in violation of 215 ILCS 5/143.10a .

A Class Trend Criticism was issued in the Commercial Auto Cancellation Survey.

Ten (10) nonrenewals (12.04% of the 83 examined) were in violation of 215 ILCS 5/143.17a. Five (5) nonrenewal notices failed to provide a specific explanation of the reasons for nonrenewal. In three (3) nonrenewal files the company failed to provide a proof of mailing. In two (2) files the company gave less than the required 60 days notice. (Three of the files had multiple errors).

A General Trend Criticism was issued.

9. Farm/Ranch Cancellations (Commercial)

There were no Farm/Ranch cancellations.

10. Farm/Ranch Nonrenewals (Commercial)

One (1) file (5.26% of the 19 examined) were in violation of 215 ILCS 5/143.17a. In the one file, the company provided 35 days notice instead of the required 60 days notice.

Three (3) nonrenewals (15.78% of the 19 examined) were due to the agent no longer represents the company. The company was in violation of 215 ILCS 5/141.01 and a General Trend Criticism was issued.

11. Commercial Fire Cancellations

There were no cancellations.

12. Commercial Fire Nonrenewals

Seven Commercial Fire nonrenewals were reviewed. 4. Private Passenger Auto Third Party Closed Without Payment

Eighty-six files were examined. Twenty-one of those files remained unresolved in excess of 60 calendar days from the date the loss was reported. A reasonable written explanation for the delay was to be provided the third party claimant as required by and as outlined in 50 Ill. Adm. Code 919.80(b)(3). In 19 files (90.48% of the 21), the company was in violation of 50 Ill. Adm. Code 919.80(b)(3). In thirteen (13) files there was no evidence that a delay letter was sent by day 60. 5. Private Passenger Auto First Party Total Losses

Twenty-three files remained unresolved in excess of 40 calendar days from the date the loss was reported requiring a reasonable written explanation for the delay to be provided the insured as outlined in 50 Ill. Adm. Code 919.80(b)(2). In twenty-three files (100.00%) the company was in violation of 50 Ill. Adm. Code 919.80(b)(2). A Class Criticism was issued.

There were 12 owner retained vehicles. The company reduced payment to the insured by the salvage value. There was no documentation of that salvage value in any of the claim files (100%). The company was in violation of 50 Ill. Adm. Code 919.30(c) and a Class Criticism was issued for the 100.00% error percentage.

Ninety-nine total loss files were examined. The company paid sales tax on all 99 files. The company paid transfer and title fees on 90 files. In 74 of those 90 files (82.22%) the company paid the fees incorrectly and was in violation of 50 Ill. Adm. Code 919.80(c)(3)(A)(i) creating underpayments totaling \$1850.00. The company did pay transfer and title fees on three (3) of the 12 owner retained vehicles (25.00%) creating three (3) overpayments totaling \$270.00. These three overpayments were random errors and do not reflect the company's business practice. The company is to treat all insureds equally and fairly in the settlement of their claims in order not to be in conflict with 215 ILCS 5/154.6(d) and/or 5/154.6(r). A General Trend Criticism applies.

Adm. Code 919.80(d)(7)(B). The company failed to provide that explanation in four (4) files (100.00%). A Class Criticism is applicable for the error percentage.

In one (1) file (0.87% of the 115 reviewed) the company created a claims underpayment of \$79.56. The claim notes indicated that this payment would be made but there was no record that it was. The company made the payment.

In nine (9) files there was an explanation sent but that explanation failed to include the Availability of the Department of Insurance. Four (4) written explanations were sent late and one (1) written explanation failed to be reasonable and understandable. Three of the files were criticized twice. A Class Criticism was issued.

Claims were denied in 34 files. In eight (8) of those 34 files (23.53%) the company was in violation of 50 Ill. Adm. Code 919.50(a)(1). The company failed to send a denial letter in three (3) files. In three (3) files a denial letter was sent the insured but failed to include the Notice of Availability of the Department of Insurance. A General Trend Criticism was issued.

8. Dwelling Fire Median & Paid

The median payment period was 11 days distributed as follows:

<u>Days</u>	<u>Number</u>	<u>Percent</u>
0-30	83	84.69
31-60	12	12.25
61-90	1	1.02
91-180	1	1.02
181-365	1	1.02
<u>over 365</u>	<u>0</u>	<u>0.00</u>
Total	98	100.00

Adm. Code 919.80(d)(7)(B). In six (6) of those files (85.71%) the company was in violation of 50 Ill. Adm. Code 919.80(d)(7)(B). The company failed to send the explanation and/or the explanation was sent late and/or the explanation was left blank. A Class Criticism was issued.

In three (3) of the 98 files examined (3.06%) the company committed policy contract violations resulting in two (2) underpayments totaling \$3,845.60 and one (1) overpayment of \$1500.00. The overpayment was due to using a \$1,000 deductible instead of the correct \$2,500 deductible. One underpayment was due to the failure of the company to pay the replacement cost holdback amount. The other was due to the failure to pay a supplement submitted. The insureds have been issued checks for the underpayments.

9. Dwelling Fire Closed Without Payment

Two files remained unresolved for more than 75 calendar days from the date the loss was reported requiring a reasonable written explanation for the delay to be provided the insured as outlined in 50 Ill. Adm. Code 919.80(d)(7)(B). The company failed to provide that explanation in both of those files (100.00%). A Class Criticism is applicable because of the error percentage of 100.00%.

Claims were denied in 32 files. In three (3) of those files (9.38%) the company was in violation of 50 Ill. Adm. Code 919.50(a)(1). In one (1) file the company failed to provide the insured with the denial letter and in two (2) files a denial letter was provided but the company failed to include the Availability of the Department of Insurance. A General Trend Criticism is applicable for the error ratio.

E. Complaints

1. Department Complaints

Ninety-one Department Complaints were reviewed. In three (3) files (3.30% of the 91) the company was in violation of 50 Ill. Adm. Code 926.40.
